Baths of Strength and Beauty

## Why choose Imex Premiercast?

Imex baths are the ultimate premium bath. Hand finished in the UK to the most exacting of standards; they are durable, strong and with a reassuring substantial weight, are perfect for all bathrooms. Regardless of bath style chosen each bath is reinforced with extra rigidity, meaning the bath will not 'flex' when you step in.

The versatility of the materials used, the advanced manufacturing process and the quality of our craftsmanship means that Imex baths can be designed in beautiful sculptural shapes that suit the contemporary bathroom. The multicore layer design in Premiercast baths offer excellent heat retention, meaning your water stays hotter for longer for an energy saving-eco conscious environment.

### OUR GUARANTEE

We are so proud and confident in our Premiercast and Cast baths that we are delighted to offer a 25 year guarantee with each bath.

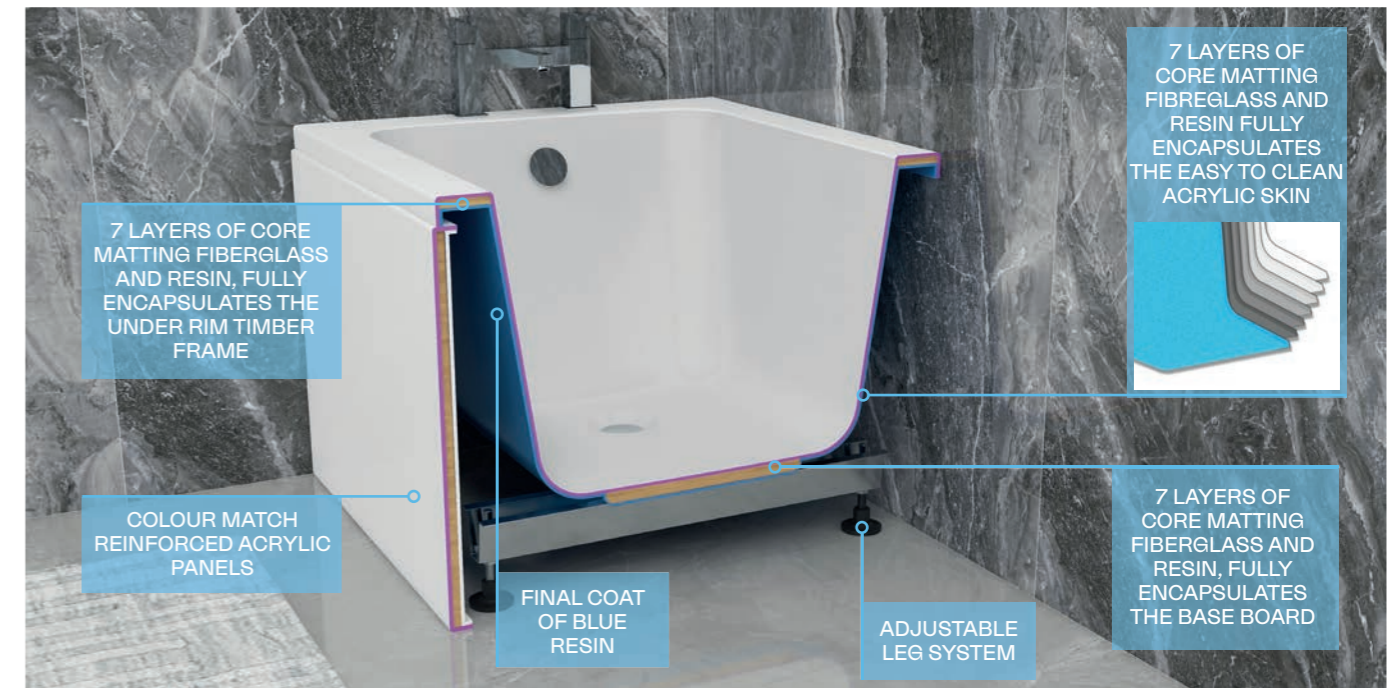

Information is also available on our website: [www.imexc ceramic.co.uk](http://www.imexc ceramic.co.uk)

## Premiercast

### The Ultimate Premium reinforced acrylic bath

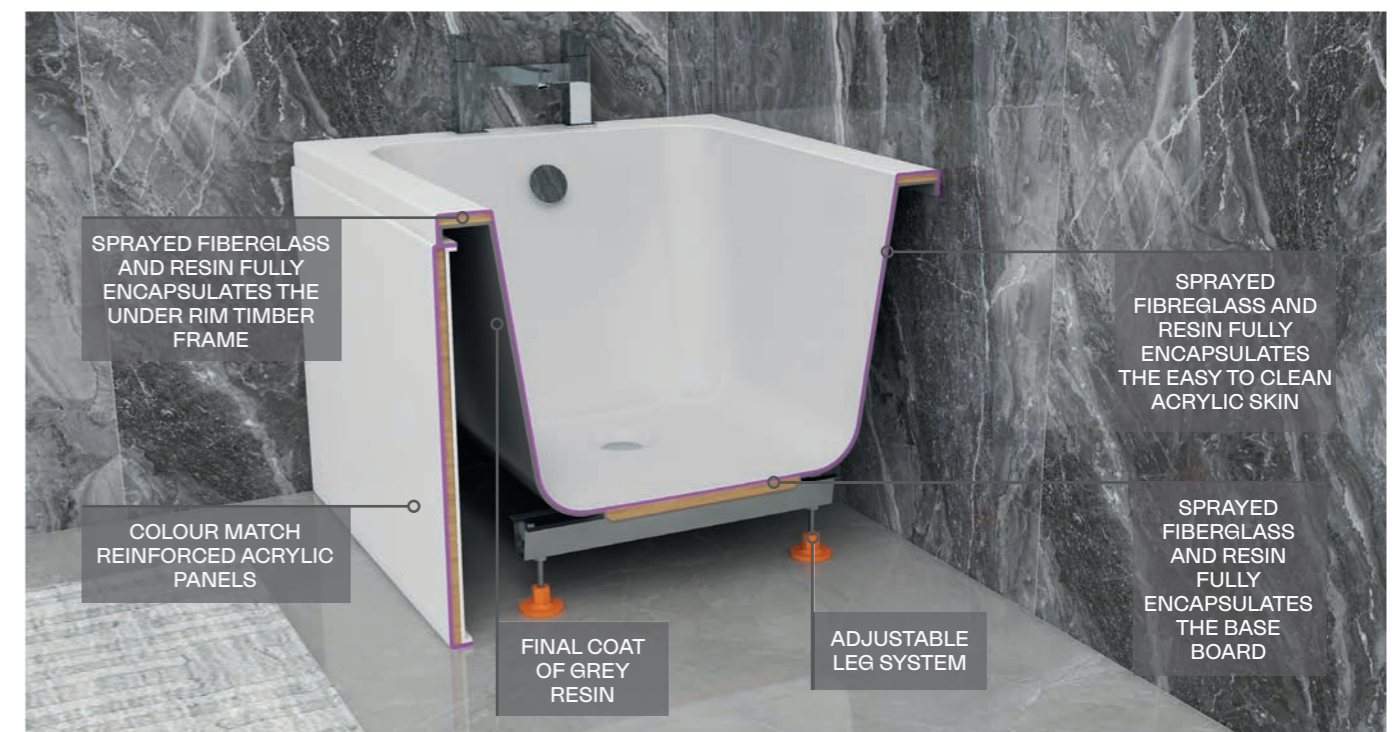

All Imex Premiercast baths are constructed by hand, we first form the bath from high quality 5mm acrylic, then add a full timber supporting frame to both the base of the bath and the underside of the rim. This creates a strong base to then apply by hand, 7 layers of fibreglass core matting. Between each layer we apply a resin bonding adhesive which, when dry creates a super strong encapsulated bonded core. Finally the bath is coated with a mix of resin and blue paint, which provides a smooth and super strength final bonded surface.

## Imex Cast

### Reinforced acrylic bath

All Imex Cast baths are constructed by both hand and automated processes, for efficiency and speed. The first process is to form the bath from high quality 5mm acrylic, we then add a full timber supporting frame to both the base of the bath and the underside of the rim. This creates a strong base so we can then apply a fibreglass sprayed layer, encapsulating the timber frame creating a durable and strong bath. Finally the bath is coated with a mix of resin and grey paint, which provides a smooth and strong final bonded surface.

The versatility of the premium materials we use in our Premiercast baths allows our designers to innovate and create sculpted, contemporary freestanding baths that are truly refined and timelessly elegant.

From the strong clean lines of Ravine to the softly rounded organic shape of Essence and the classic design of Arco Slim, Premiercast freestanding baths will be the star attraction in your bathroom.

## ACRYLIC REINFORCED BATH PANELS

### ACRYLIC SURFACE

All Imex bath panels are made using an acrylic sheet, ensuring a perfect colour match, offering a durable and easy to clean smooth finish.

### REINFORCED FOR STRENGTH

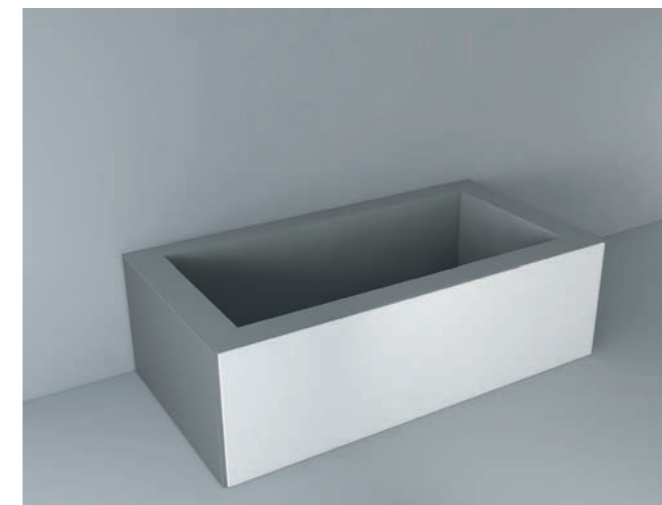

The back of the panel is reinforced with a timber frame, encapsulated with fiberglass for maximum strength.

### NO COLOUR FADING OR CRACKING

Unlike ABS panels, acrylic panels will remain stable in their colour and because they are so strong they will not crack or distort.

### 100% WATERPROOF

All panels can be trimmed to size and will remain totally waterproof.

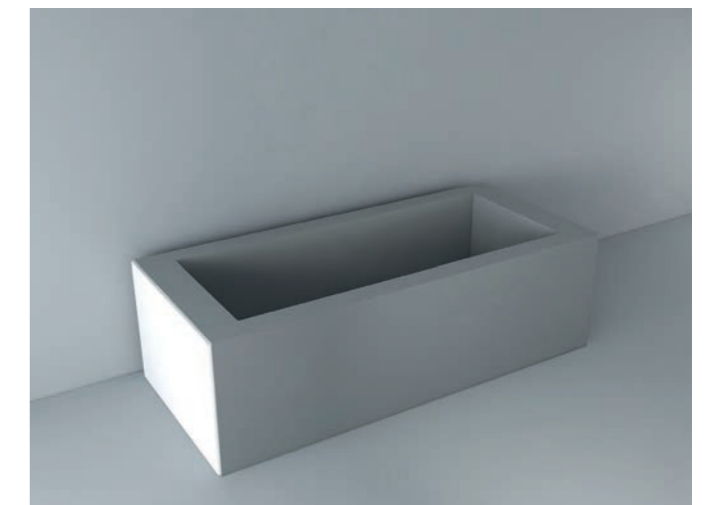

### Side Panel

1800mm reinforced side panel  
1800mm x 510mm IMC1800SP **£211.00**
